

## CASE STUDY

Kamini Mistry, Head of School  
Sudbury Primary School

### AT A GLANCE

#### PREVIOUS CHALLENGES

- Creating reports for appraisals
- Collecting accurate data to make informed decisions
- Managing time efficiently

#### CURRENT BENEFITS

- SchooliP creates reports with the push of a button, saving precious time
- Decision can be made based on data which is indefinitely stored
- All process are more efficient allowing for better time management

“...SchooliP has made our performance management processes more rigorous and more robust...”

#### KAMINI MISTRY

Head of School  
Sudbury Primary School

### OVERVIEW

Sudbury Primary School successfully uses SchooliP as a tool to positively oversee the performance management of their staff. Kamini Mistry is the Head of School and our cloud-based solution was already in place when she was appointed to her post. Sudbury Primary School is a large four form entry primary school located in Wembley, London.

### IMPACT

Kamini stated "It is an efficient and effective system for processing and analysing performance management data. We have a wealth of information immediately available. As a school leader, analysing performance management data is so much easier and a lot less time-consuming."

Kamini also added that "It is all centralised and easily accessible. Setting up staff reviews with their objectives is the best feature of SchooliP. It is a great system to use for performance management, especially for leaders to review the progress of our teachers. Overall, it is an effective and efficient system that has saved me time."
